

ALBUM IN A YEAR: November online material

Daily Thanks by Amanda Probst. **Supplies** Cardstock: Prism Papers; *Patterned paper*: Making Memories, SEI; *Month flashcard*: 7 Gypsies; *Velvet ribbon*: Making Memories; *Brads*: Creative Impressions; *Transparency leaves*: My Mind's Eye; *Computer fonts*: Century Gothic, Microsoft Word; Impact, Microsoft Word; FlingLET, downloaded from Fonts101.com.

Step by step instructions to recreate this layout:

1. Print/trim thirty 2" x 2" photos and one 4" x 4" photo. (To create the 2" x 2" photos, you can simply punch/cut standard prints, print your own photos to size, or arrange six squares/images on a 4" x 6" print and have those printed.)
2. Select and trim three different pieces of patterned paper. Cut two pieces to 2" x 2" and one to 2" x 4". (Feel free to substitute patterned paper for more photos or vice versa!)
3. Print the title block on cardstock and trim to 10" x 3" (I've included a dashed line larger than the intended title block to assist with trimming. Just trim to the inside of the dashed line.)
4. Trim two strips of cardstock to 12" x 0.5" to go beneath the top row of photos. Trim another strip of differently colored cardstock to 10" x 1" to go beneath the title block. (You can easily use patterned paper or ribbon or buttons for these as well.)
5. Arrange everything on the background papers, with the top edge of the photos being roughly 1.5" from the top of the pages.
6. Add ribbon and brads to the cardstock strips between the first and second rows of photos.
7. Staple transparency leaves to month flashcard. Adhere to layout as shown, slightly below and to the left of the title block.
8. Round corners of layout if desired.
